

**December 21, 2011**

**PUBLIC WORKS DEPARTMENT**  
**TEMPORARY ROAD SIGNAGE**

**William Street at Elm Street**  
**Temporary 4-Way Stop**

**In Conjunction with the William Street Bridge Rehabilitation**

As only the south sidewalk of the William Street Bridge will be open throughout the winter months, it is deemed prudent to temporarily implement an all-way stop condition at the intersection of William Street and Elm Street for the re-opening of two-way traffic at the William Street Bridge

The temporary all-way stop condition will be removed once both sidewalks on the William Street Bridge have been reopened.

It is our goal to minimize any inconvenience to our residents. Your patience through any disruption will be greatly appreciated. If additional information is required, please contact:
