

May 30, 2007

**Temporary Closure of River Road**  
**Between Newport Road and Fawcett Road**

At its May 15, 2007 meeting, County of Brant Council approved the following Public Works Committee recommendation:

*“Whereas due to safety concerns related to slope failures along River Road, it is desirable for the municipality to close a section of the road on an emergency basis until options for a long-term solution have been considered;*

*Be it therefore resolved that the County of Brant approve the temporary closure of River Road, between Newport Road and Fawcett Road;*

*And that staff be directed to solicit Requests for Proposals from consulting firms to undertake a Class Environmental Assessment to consider options available for River Road including closing or relocating the existing road allowance.”*

The section of River Road between Newport Road and Fawcett Road will be closed to through traffic until further notice. Several road closure signs and barricades have been installed.

Should you have any questions with regards to the above noted resolution, please contact the Public Works Department at 519-449-2451.
