### Municipal Class Environmental Assessment Study Governors Road West and Cleaver Road

#### Introduction

The County of Brant is undertaking a study to determine the future operation of the section of Governors Road West and Cleaver Road that are presently closed under an agreement with Lafarge Canada Inc. These roads were closed following the execution of the agreement in December 2013. The initial agreement term has been extended until July 2020.

#### Problem Statement

Portions of Governors Road West and Cleaver Road have been closed to traffic since December 2013 under an agreement between the County of Brant and Lafarge Canada Inc. When the agreement expires, a portion of the road base will be in place on a different alignment as specified in the agreement. Alternatives will need to be considered to best serve and accommodate the existing and future land use and transportation needs of the County.

#### Study Process

The project is being planned under Schedule B of the Municipal Class Environmental Assessment. The study will complete all the necessary phases of the Municipal Class EA to receive environmental clearance prior to undertaking any construction.
