Environmental Assessment to Secure Additional Solid Waste Disposal Capacity within the County of Brant, Corporation of the County of Brant

The Project: The County of Brant has initiated an environmental assessment (EA) under the *Ontario Environmental Assessment Act (EAA)* to secure additional solid waste disposal capacity within the County of Brant, based on the recently approved Terms of Reference (TOR) and conditions of approval for the undertaking. The County is seeking EAA approval to increase the Biggars Lane Landfill disposal capacity to meet the County's disposal requirements to the year 2050.

Biggars Lane Landfill is located in the County of Brant, Ontario, as shown below:

The Process: In May 2015, the Minister of the Environment and Climate Change (MOECC) approved the TOR for additional solid waste disposal capacity through expansion of the Biggars Lane Landfill. The approved TOR outlines the County's framework and work plan for fulfilling the EAA requirements during the preparation of the EA. Information on the Environmental Assessment project and a copy of the TOR is available at: <http://www.brant.ca/en/explore-our-services/Solid-Waste-Environmental-Assessment.asp>

Public Information Centre #3 will present an overview of the purpose of the Environmental Assessment (EA), the EA process, proposed landfill expansion alternative methods at the

Biggars Lane Landfill site, scope of assessment studies to be completed to investigate the alternative methods (ie. surface/groundwater, traffic, etc.) and the proposed evaluation criteria to be utilized to review the alternative methods.
