

Notice of Public Information Centre No.2 Class Environmental Assessments for St. George Water and Wastewater Servicing

The community of St. George in the County of Brant is currently serviced by a municipal groundwater supply system and a wastewater treatment plant. Upgrades to these services are required to improve the security of the water supply and to address deficiencies at the existing wastewater treatment plant, which include lack of redundancy and capacity limitations.

The Process: In May 2014, the County initiated two separate, concurrent Class Environmental Assessment (Class EA) studies to plan for the water and wastewater servicing upgrades required for St. George.

The Class EA studies are being conducted in accordance with the requirements of Schedule C projects of the *Municipal Class Environmental Assessment* document (Municipal Engineers Association, October 2000 as amended in 2007 & 2011). In these studies, alternative servicing solutions will be identified and evaluated. The preferred servicing solution and design concept will be selected to minimize community, natural environmental and economic impacts.

Public Consultation: Members of the public and review agencies are encouraged to provide input on the studies. A first Public Information Centre was held on May 1, 2014 to introduce the projects, present an overview Class EA study activities, and gather initial feedback from the public and review agencies.

A second Public Information Centre will be held to present the alternative water and wastewater servicing solutions being considered, and the proposed evaluation approach that will be used to select the preferred solution. The second Public Information Centre will be held:

Date: Thursday, September 25, 2014
Time: 4:30 p.m. – 7:30 p.m.
Location: South Dumfries Community Centre
7 Gaukel Drive, St. George, ON N0E 1N0

Contact Us: If you are unable to attend, we would still like to hear from you. Please contact either of the project team members below if you have questions or comments, wish to obtain more information on the project, or would like to be included on the Project Contact List:
