

# A Simply Grand *Plan*

We need  
your input!

The County of Brant is developing a new Official Plan.  
The long-term vision is to:

- **Guide how the land will be used today and in the future**
- **Manage growth and development**

Decisions we make today, will impact the future of our community.  
**This plan belongs to all of us.**

The Official Plan is prepared with **input from the community, careful listening, short and long term planning, strategic thinking, and by creating key policies** that are consistent with the Provincial Policy Statement and the Provincial Policy Plans.
