

Notice of Study Commencement Municipal Class Environmental Assessment

Burford Water and Wastewater Servicing And Drainage Plan

Engage with us!

The County of Brant invites you to engage with us as we investigate and evaluate water and wastewater servicing alternatives and drainage improvements for the community of Burford. The Master Plan will consider the various alternatives for both water and wastewater servicing as well as alternatives to improve surface water drainage throughout the community to the 2050 design horizon. Alternatives will be examined as part of the study including the impacts of alternatives on the social, cultural and natural environment. The approximate extent of the Study Area is shown on the map.

The Study is being carried out in accordance with the requirements for Master Plan study (Phases 1 and 2) as outlined in the Municipal Engineers Association *Municipal Class Environmental Assessment Manual* (October 2000, as amended 2007, 2011 & 2015), which is an approved process under the *Ontario Environmental Assessment Act*.

Public consultation is important for the success of this project. We're interested in receiving your comments. Public, review agency, and Indigenous communities' consultation is a key element of the process and input will be sought from various parties throughout the study. At this time, it is anticipated that two (2) Public Information Centers (PICs) will be conducted in 2021 to invite public input. All Project information including notices and updates will be posted on the County of Brant's website, www.brant.ca/BurfordMasterPlan.

Project and Notice information will be provided in alternative format upon request in accordance with The County of Brant's Accessible Customer Service Policy and the Integrated Accessibility Standards Regulation (O. Reg. 191/11) as legislated under the AODA, 2005.

To provide comment or to request additional information concerning this study or if you would like to be added to the Project Contact List to receive future project notices, please contact either of the following project team members:
