

Snow Buddies Program Price Guidelines

Price Guidelines should help Buddies and Seniors/Adults establish a fair rate of pay each time shoveling is required. Both parties should be comfortable with the amount negotiated.

Communication is the key.

- Please note that the **size of the area** and the **amount of snow** to be shoveled will affect the amount.
- **Prices are not fixed and are to be used as a guideline only for an average snowfall.**
- Payment should be made immediately after the job is completed.

Average city sidewalk in front of a house:	\$10
Single driveway plus sidewalk in front of house:	\$12 - \$18
Double driveway plus sidewalk in front of house:	\$15 - \$25
Corner lot including driveway:	\$18 - \$30

Circumstances that may require additional negotiation:

- If shoveling takes place before the snow has stopped falling and the Buddy has to return the same day.
- Heaviness of snow being lifted.
- How much snow is being cleared after a snow plough has filled a driveway.
- If severe weather makes it more difficult for the Buddy to shovel (wind, sleet).
