

New Water and Wastewater Rates Effective May 1, 2024

The County of Brant strives to maintain efficient and cost-effective municipal water and wastewater systems. The funding for operation and maintenance of the municipal water and wastewater systems comes directly from the fees and charges paid by the consumers of the systems. Property tax is not allocated towards this funding.

The rate structure consists of a fixed monthly fee, specific to meter size and a humpback volumetric rate, where fees change at usage milestones. Savings can be realized by minimizing your monthly water usage. More information about rates can be found on our website at www.brant.ca/waterservices under Fees and Charges.

2024-2025 Water and Wastewater Rate Structure

Fixed Monthly Rates

The fixed charge applies even if you have not used any water. The fixed costs include meter reading, billing, customer service, repair, and maintenance costs.

Meter Size	Water	Wastewater
5/8	\$45.34	\$19.41
3/4	\$67.99	\$29.11
1	\$113.32	\$48.52
1½	\$226.66	\$97.04
2	\$362.66	\$155.27
3	\$770.72	\$329.98

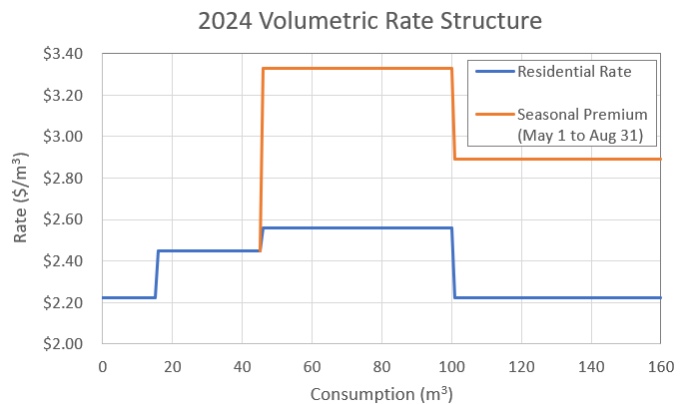

Extended Water Shut-off

Consumers who go away for extended periods or otherwise will not be using water may request that their water be temporarily turned off. Those consumers will pay 75% of the fixed monthly water charge. The fixed charge applies because certain fixed costs are incurred whether water is used or not.

Volumetric Rates (per cubic meter – m³)

These charges are based on water consumption, measured by the water meter. The cost of water used is based on a charge per cubic meter (m³). To encourage residential consumers to use water wisely, especially during the summer months, a special rate is applied to consumption by residential consumers using more than 45 cubic meters per month from May 1 to August 31 each year.

Volumetric Usage (m ³)	Water	Wastewater
0 to 15	\$2.22	\$1.72
15.1 to 45	\$2.45	\$1.89
45.1 to 100	\$2.56	\$1.98
100.1 and over	\$2.22	\$1.72
Seasonal Premium – May 1 to August 31 <i>for Residential Consumers using over 45 cubic meters</i>		
45.1 to 100	\$3.33	\$1.98
100.1 and over	\$2.89	\$1.72
Bulk Water		
Per Cubic Meter	\$3.56	N/A
