

Water/Sanitary Sewer Connection

A building permit is required when a water or sanitary sewer service is constructed, repaired, or altered on private property.

The relationship between a public works permit and a building permit:

The Operations Department administrates and issues Public Works Permits for water and sanitary sewer connections, if any works are to be constructed in the municipal road allowance, including but not limited to connection to the water main or municipal sanitary sewer.

The Ontario Building Code regulates the installation and inspection of a water and/or sanitary sewer connection on private property, which requires a Building Permit.

Permit application submission requirements:

In many instances, before a building permit application can be processed and a permit issued, there are other approvals from other agencies that are required. These approvals are not administered by the Building Division and are required as part of a complete application package. Please consult the applicable law checklist prior to applying for a building permit.

This checklist provides a summary of the Building Permit submission requirements for water and/or sanitary sewer connections and has been developed for convenience purposes only. The property owner is responsible for ensuring compliance with all County of Brant By-laws, other applicable laws, and the Ontario Building Code.

- Permit applications to be filled out and signed
- Authorization form (if applicable)
- Designer information 'Schedule 1' to be filled out
 - Designer's name, Building Code Identification Number (BCIN), and signature must appear on all drawings submitted.
 - Property owners exempted from qualification must fill-in the form to specify the reason for exemption
- Site Plan, including:
 - The proposed services and approximate location of the connection to municipal services at the property line, and location of the connection at the house
 - The total length of pipe to be installed and the proposed pipe material for the new service
- A [Public Works Permit](#) may be required. Public Works Permits are required prior to the building permit being issued. For more information, contact operations@brant.ca.

Next steps:

- Submit the complete permit application and supporting documents through the [County of Brant website](#)
- The application is reviewed for completeness, compliance with the zoning by-law, applicable laws, and lot grading approval. Comments are provided during review to identify any outstanding requirements and to summarize all applicable fees.
- When all fees are paid, the plans are reviewed for compliance with the Ontario Building Code. The permit is issued when review is complete, and fees are paid.
- Once construction begins, inspections must be scheduled. Building inspectors review major phases of construction until occupancy and/or final is complete.
