

Sewage System Repairs/Alterations and/or New Septic Beds

A building permit is required to ensure properly functioning sewage systems are installed and meet the minimum requirements of the Ontario Building Code.

Permit application submission requirements:

In many instances, before a building permit application can be processed and a permit issued, there are other approvals from other agencies that are required. These approvals are not administered by the Building Division and are required as part of a complete application package. Please consult the applicable law checklist prior to applying for a building permit.

This checklist provides a summary of the Building Permit submission requirements for sewage system repairs and alterations and has been developed for convenience purposes only. The property owner is responsible for ensuring compliance with all County of Brant By-laws, other applicable laws, and the Ontario Building Code.

- Permit applications to be filled out and signed
- Authorization form (if applicable)
- Designer information 'Schedule 1' to be filled out
- Sewage System Installer Information 'Schedule 2' to be filled out
- County of Brant Sewage System Design Sheet to be completed
- Soil evaluation completed by a professional engineer (required for new septic beds only), including:
 - Soil investigation including depth to zones of soil saturation, soil properties, and permeability
 - Date evaluation completed
- Septic system design and layout, including:
 - A site plan showing the location of the proposed septic system with setbacks and location of soil samples taken
 - Dimensions from the tank(s) and the tile runs to adjacent buildings and structures, property lines, wells, and water courses
 - The size and location of the septic tank and/or pump chamber
 - Location of the tile bed indicating the length, spacing, number of tile runs, and the dimensions of the extended contact area
 - Cross Section of the leaching bed
- The Ontario Building Code requires a copy of the service and maintenance agreement between the owner and the authorized service provider to be provided for proposed treatment unit installations other than a septic tank (if applicable).

Next steps:

- Submit the complete permit application and supporting documents through the [County of Brant website](#)
- The application is reviewed for completeness, compliance with the zoning by-law, applicable laws, and lot grading approval. Comments are provided during review to identify any outstanding requirements and to summarize all applicable fees.
- When all fees are paid, the plans are reviewed for compliance with the Ontario Building Code. The permit is issued when review is complete, and fees are paid.
- Once construction begins, inspections must be scheduled. Building inspectors review major phases of construction until occupancy and/or final is complete.
