

## Bunkhouse Camp for the Housing of Workers

According to the County of Brant Comprehensive By-Law, a bunkhouse means an agricultural use whereby a structure provides temporary accommodation for farm labour where the size and nature of the farm operation requires additional employment.

The bunkhouse may be located on a parcel of land that is part of the extended farm operation but is not intended to be used as a permanent or principal place of residence. The bunkhouse is intended to be located within proximity to the farm building cluster to preserve prime agricultural lands. Where a bunkhouse is used as temporary accommodation for employees of multiple farm operations, the use shall be considered an on-farm diversified use and subject to the requirements of Section 6.4 of the Zoning By-Law.

### Building permit application submission requirements:

In many instances, before a building permit application can be processed and a permit issued, there are other approvals from other agencies that are required. These approvals are not administered by the Building Division and are required as part of a complete application package. Please consult the applicable law checklist prior to applying for a building permit.

This checklist provides a summary of the Building Permit submission requirements for a bunkhouse and has been developed for convenience purposes only. The property owner is responsible for ensuring compliance with all County of Brant By-laws, other applicable laws, and the Ontario Building Code.

- Permit applications to be filled out and signed
- Authorization form (if applicable)
- Bunkhouse Declaration Form
- Designer information 'Schedule 1' to be filled out
  - Designer's name, Building Code Identification Number (BCIN), and signature must appear on all drawings submitted.
- Site plan, including:
  - The address or roll number (beginning with 2920) of the property
  - All property lines and surrounding streets labelled
  - All proposed and existing buildings and structures on the property labelled
  - Proposed distance from all legal property lines (not street lines, sidewalks, etc.)
  - Location of septic system (if applicable) and distance to proposed building(s)
  - Farm business registration number
- Grading Review
  - To determine if a grading plan is or is not required for your building permit application, you can send your site plan to the Grading Department at [grading@brant.ca](mailto:grading@brant.ca), or contact them directly for additional information

- Complete set of construction drawings drawn to scale, including:
  - **Foundation Plans** (incl. size of walls, footings, and piers)
  - **Floor Plans** (incl. overall dimensions, room names, plumbing fixtures, structural information, door and window sizes, emergency lighting, fire separations, and smoke and CO detectors)
  - **Building Elevations** (4) from all sides showing grade location, floor height above grade, wall height, roof height, roof slope, cladding material, roofing material, and window and door location and sizes.
  - **Cross Sections** (1 min) through the wall from footings to roof noting all materials in the foundation, wall, and roof assembly.
  - **Other Details that may be required:**
    - Building anchorage details (if applicable)
    - Roof truss layout
    - Engineered product specifications and layouts
- Heat Loss/Gain Calculations and Mechanical Ventilation Design Summary form (winter occupancy only)
  - Provide along with calculations - Schedule 1: Designer Information
- Energy Efficiency Design Summary form and applicable supporting documentation
- For existing septic systems: a letter from a licensed installer or professional engineer verifying the location of the existing septic system, tile bed size, and capacity of existing tank, can accommodate the proposed work and is in good working order
  - A separate permit is required for alterations to the septic bed or tank to accommodate the proposed work, and for new or replacement systems

## Health Department

The Health Department may require a separate inspection once the building department has provided an occupancy permit. It is recommended you discuss your proposed work with a Public Health Inspector prior to starting construction.

## Next steps:

- Submit the complete permit application and supporting documents through the [County of Brant website](#)
- The application is reviewed for completeness, compliance with the zoning by-law, applicable laws, and lot grading approval. Comments are provided during review to identify any outstanding requirements and to summarize all applicable fees.
- When all fees are paid, the plans are reviewed for compliance with the Ontario Building Code. The permit is issued when review is complete, and fees are paid.
- Once construction begins, inspections must be scheduled. Building inspectors review major phases of construction until occupancy and/or final is complete.
